Brief description of processing procedure:

The records in this collection were located in the Black Archives ready reference room under Personalities H. After a preliminary survey was conducted, it was discovered that the records were in categorical order however, they were kept in two large binder folders. To process the collection the information was placed into categories, and then transferred into acid-free file folders. After being appropriately labeled, the folders were organized in alphabetical order and placed in an acid-free Hollinger box. A content listing was made, and the appropriate labels were attached, and the boxes were stored in the collection room. This collection was processed at the file folder level and is now categorized multiple series.

Alcee Hastings Collection – Continued

***** Archivist Note:** These records were stored along with the Personalities H Collection, and since this is a community archives, it will be an ongoing collection. The collection includes, profiles, correspondences, and news articles of Hastings, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to separate it from the personalities H due to its' high volume of information and newspaper clippings.

****Researchers Key:** Researchers will be able to cross-reference Hastings' records with other material in the archives. Examples of other collections include, Civil Rights (Civil Disturbance), the Law Enforcement, and Neighborhoods & Communities. *tab*
